A FAKE DATE. AN UNEXPECTED KISS. A REAL CHANCE AT LOVE.

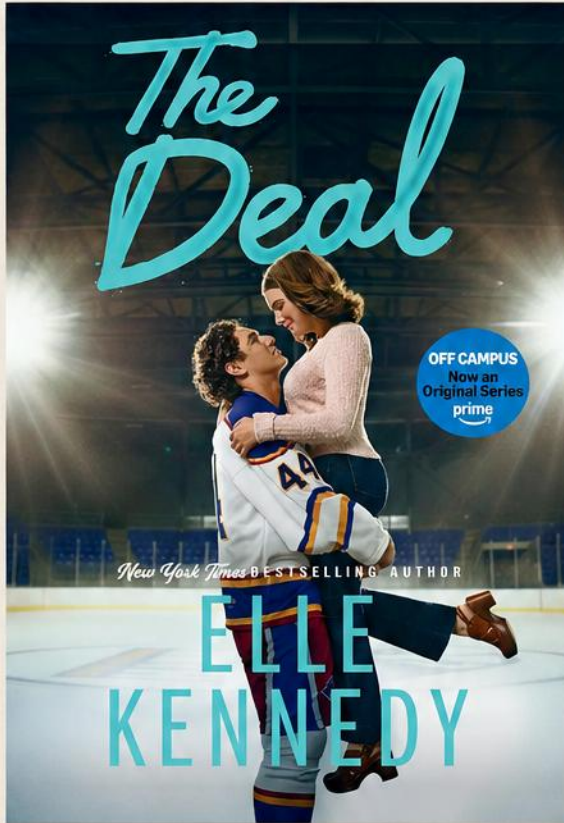

Elle Kennedy's *The Deal* Kicks Off the *Off-Campus* Series That Captured Readers Worldwide

NEW YORK – *New York Times* bestselling author Elle Kennedy delivers a smoldering, witty, and addictive start to the *Off-Campus* series with *The Deal*, a romance novel that has become a BookTok phenomenon and inspired the Amazon Prime original series *Off-Campus* – now streaming.

Hannah Wells is finally ready to step out of her comfort zone and go after the guy she's always wanted. But doing that means striking a deal with Garrett Graham, the arrogant, sarcastic, hockey team captain who needs help to save his academic career.

What begins as a simple tutoring agreement quickly blurs the lines between pretend and real when one unexpected kiss leads to the hottest night of their lives. Now, Garrett has to prove to Hannah that the man she wants has been right in front of her all along.

Funny, flirty, heartfelt, and impossible to put down, *The Deal* is the perfect blend of college romance, emotion, and sizzling chemistry.
